B&P IS A PREMIER MANUFACTURING SOURCE FOR METAL FABRICATION

Brooks and Perkins is a small, privately owned, HUBZone Certified business located in Cadillac, Michigan with 120,000 square feet of production capability.

B&P has a diversified product portfolio manufacturing high quality products for both the commercial and defense industries.

Utilizing our in-house capabilities allows B&P to be competitive in pricing and a top tier source for metal fabricated procurements. Working with pre-existing container programs or quoting out the manufacturing of a new design, B&P can work with you to provide solutions tailored to your specifications and requirements.
